

Please amend the subject application as follows:

IN THE SPECIFICATION:

Please amend the paragraph beginning at page 14, line 5 and ending at page 14, line 9 as follows:

--The video and/or audio signals can be IR or RF signals and transmitted over more than one channel at different frequencies to avoid interference and enable different programs to be simultaneously played on different displays. ~~[[Each]]~~As shown, for example, in Figure 7, each display can include a multiplexer 133 for selecting programs to display.--
